- **Web development.**
- Fast In adapting to new technology and working environment.
- Graphics designing.

- Html5, Css3 and Bootstrap4
- JavaScript and react js
- Python and Django
- Microsoft office packages
- Adobe Photoshop

ACTIVITIES

I have always loved to be a solution provider and I never stop until the goal is attained. I am recently holding a volunteer position at the All Christian Fellowship Lefke where I happen to the Head of Department for the media team. I am a native English speaker but can pick up languages constantly used

around me. I took a course titled "Cyber security: Developing a program for your business "back in 2016 which lasted for six months from Kennesaw state university online with Coursera ([View the Certificate](#)). I am really good with computer repairs as I was introduced into fixing PC's from 2009. After mastering repairs I decided to dive into software development hence my current web developer status.
