TOP SKILLS

- Python (Programming Language)
- Full-Stack Web Development
- Machine Learning

FRAMEWORKS, COMPUTER LANGUAGES, TOOLS AND SOFTWARES

- Html5/ Css
- JavaScript
- JQuery/ Vue.js
- Python
- Microsoft Office
- Adobe Photoshop
- Machine Learning algorithms.

SHORT COURSES

- Numerical reasoning word problems
- Building assertiveness
- Active Learning
- Effective teaching
- Numerical Series
- Problem solving
- Action Planning

LEO O OJIGBO

Computer and machine learning Engineer, Python Programmer, Full-Stack web developer.

Seeking the position of a Full Stack Developer to further enhance organizational worth owing to my array of skills. To work with a team of goal oriented people striving towards the development, advancement and improvement of the organization as well as self-development while enjoying job satisfaction.

Summary

Specialized in Machine Learning research, Computer maintenance, Python programming, and full stack web technologies with python Frameworks

PERSONAL INFORMATION

- **Sex** : Male
- **Date Of Birth** : October 21
- **Nationality** : Nigerian

Education

European University of Lefke (EUL)
MSc, Computer Engineering · (2017 – 2019)

Courses Taken

- COMPUTER COMMUNICATION AND NETWORKS
- ARTIFICIAL NEURAL NETWORKS
- RESEARCH METHODS AND PUBLICATION ETHICS
- ADVANCED ARTIFICIAL INTELLIGENCE
- ADVANCED DATABASE MANAGEMENT SYSTEMS
- ANTENNA THEORY
- MACHINE LEARNING

Kennesaw State University
Cybersecurity: Developing a program for your business,

PushCV Learning Center
Short courses, Workplace Skills · (2015 – 2015)
O Logic Digit Engineering services
Certificate in computer engineering, Computer Engineering · (2013 – 2013)
University of Port Harcourt
Bachelor of Science (B.Sc.), Mathematics and Computer Science · (2006 – 2012)
Drisoft Institute of Computer and Accountancy
Computer Engineering Diploma
(2009 – 2009)

Experience

All Christian Fellowship Lefke

Head of the Department (Media)

January 2018 – 2019

European University of Lefke

European University of Lefke (EUL)

Graduate Student Assistant

March 2018 – September 2018 (7 months)

Gemikonagi, TRNC

My tasks:

Teaching students "Introduction to Computers" course at the computer

Laboratories and helping with other course related issues. My stay here made me to start using C programming language even though I already had a C++ background.

Lyncrest International College

Instructional Officer and IT manager

December 2013 – January 2017 (3 years 2 months)

Lagos, Nigeria

The time spent here saw me improving the ICT experience of the students under me.

I pushed for instructors to stop making hard-copy notes and instead used the computers and save cost from printing.

I made my instruction notes on share site so the students could get them before the class, which made learning more fun and interactive for them.

I went on to create an Android HTML5 app for the lecture notes and made the students have it installed.

Knowing fully well that the students accessed the mobile devices daily which attracted them to learning, and the impact was felt when they all had Distinctions for their JSCE exams.

O Logic digit engineering services

Computer Technician

May 2013 – October 2013 (6 months)

Warri, Nigeria

I put my knowledge of computers to work, troubleshooting and fixing both hardware and software problems.

Precious Step Montessori

Mathematics Instructor

August 2012 – February 2013 (7 months)

Port Harcourt, Nigeria

My stay here saw me helping students with Math, Additional Math and Physics lectures.

Crown FM

Part-time voice over artiste

February 2012 – August 2012 (7 months)

Warri, Nigeria

Used my content creation knowledge to create unique scripts for ads and improved my Voiceover skills by putting my voice on the ads in the studio.

Drisoft Institute of Computer and Accountancy

Sql Language Instructor

October 2011 – March 2012 (6 months)

Warri, Nigeria

At my time with this organization, I was responsible for teaching the SQL language to students and also assisted in maintaining the computer systems.
